

SYSTEM USER ROLES & WORK ORDER (JOBS) GUIDE

Standard Operating Procedure (SOP) & Role Responsibilities Guide for FIREX Safety Management Application.
Covers: 7 Distinct User Roles, Strict Report Preparation Permissions, Job Creation, Scheduling & Financial Governance.

1 1. USER ROLES OVERVIEW & PERMISSION HIERARCHY

GENERAL MANAGER (GM)

Executive / Full Authority

- Complete administrative, operational, and financial control over the entire FIREX system.
- Final review & one-click approval on all AMC contracts, Work Orders, and Official Reports.
 - Full financial visibility: profit margins, VAT breakdowns, accounts receivables, and job hold overrides.
 - Sole authority to create/manage user accounts (including Projects Manager and Accounts personnel).
 - Can review, approve, view, and lock any inspection or emergency report.

PROJECTS MANAGER

Operations & Project Delivery

- Operational management of Project installations, Fit-Out works, item supplies, and site handovers.
- AUTHORIZED TO PREPARE REPORTS: Project Reports, Fit-Out Reports, Installation Reports & Supply Reports.
 - Tracks project milestones, material delivery schedules, job timelines, and contractor coordination.
 - Monitors technician attendance and oversees job lifecycle from pending status through completion.
 - Collaborates directly with Engineers and Supervisors for resource allocation.

FIRE PROTECTION ENGINEER

Technical & Engineering Compliance

- Technical engineering authority ensuring Civil Defence and NFPA standards compliance.
- AUTHORIZED TO PREPARE REPORTS: Testing & Commissioning Reports, Inspection Reports, Fault Reports & AMC Reports.
 - Reviews technician checklist findings, approves rectified faults, and verifies hydraulic/panel test results.
 - Provides engineering sign-off on fire pump flow tests, clean agent concentration, and loop wiring.
 - Assigns and validates technical procedures on complex jobs and fit-outs.

SENIOR FIELD SUPERVISOR Frontline field operations leader directing technician teams, emergency callouts, and daily site work. - AUTHORIZED TO PREPARE REPORTS: Work Completion Reports, Fault Reports, AMC Inspection Reports & Emergency Reports. - Dispatches certified technician teams to job sites, AMC quarterly visits, and 24/7 urgent callouts. - Verifies field photographic evidence (Before, During, After) and checks digital customer sign-offs. - Maintains job execution quality, safety compliance, and site access coordination.	Field Operations & Dispatch
CERTIFIED FIELD TECHNICIAN Mobile-first hands-on technical specialist executing inspections, repairs, and installations. - AUTHORIZED TO PREPARE REPORTS: Drafts and submits official reports for all assigned tasks. - Records site arrival timestamps, executes detailed NFPA checklists (Pass/Fail/Needs Attention). - Uploads high-resolution photographic proof (Before / During / After) with captions. - Captures customer representative digital signature directly on mobile touchscreen on-site. - Protected view: Financial figures and unassigned accounts are hidden for confidentiality.	Mobile Field Specialist
SALES SPECIALIST / ACCOUNT MANAGER Manages client relationships, generates work quotations, and books AMC maintenance agreements. - Creates new Customers, Site premises, AMC contracts, and Job Work Orders. - Enters Quotation References, contract scopes, and submits proposals for GM approval. - Monitors sales targets, active contract renewal pipeline, and customer billing status. - STRICT RESTRICTION: Read-only access to operational reports. Strictly prohibited from preparing technical reports.	Business Development & Quotations
ACCOUNTS & FINANCE LEAD Complete financial ledger governance, tax invoice creation, payment recording, and debt protection. - Issues Tax Invoices with standard 10% Bahrain VAT breakdown and official CR/VAT registration. - Records customer payment receipts (Cash, Cheque, Bank Transfer, BenefitPay) and tracks balances. - JOB ON-HOLD GOVERNANCE: Puts work orders on financial hold when clients have overdue unpaid balances. - Generates Excel customer ledgers. STRICT RESTRICTION: Prohibited from preparing technical reports.	Invoicing, VAT & Job Hold Governance

2 2. STRICT REPORT PREPARATION PERMISSIONS POLICY

CRITICAL SYSTEM POLICY: WHO CAN CREATE & PREPARE REPORTS

- ONLY 4 ROLES can create/prepare reports: PROJECTS MANAGER, ENGINEER, SUPERVISOR, TECHNICIAN.
- AUTOMATIC IDENTITY CAPTURE: The system automatically captures the authenticated user name, role, date, and exact timestamp.
- NO MANUAL TYPING: Users cannot type or alter the "Prepared By" name. Official PDF reports embed this verified signature block.
- SALES & ACCOUNTS RESTRICTION: Sales and Accounts may VIEW reports where permitted, but CANNOT create or edit technical reports.

3 3. HOW TO CREATE A NEW WORK ORDER (JOB) — STEP-BY-STEP

STEP 1

Navigate to Jobs Module
From the main navigation bar, click on the "Jobs" tab (or click "+ New Work Order" on the Dashboard).
This opens the Work Orders management console displaying All, Active, Pending, Completed, and On-Hold jobs.

STEP 2

Click "+ Create Work Order"
Click the primary action button "+ Create Work Order" located at the top right of the Jobs screen.
The comprehensive "Create New Work Order" modal will slide open with all mandatory compliance fields.

STEP 3

Select Job Type & Safety System
Choose the appropriate category for the work order from the dropdowns:

- Job Type: AMC Maintenance, Fit-out Works, Supply of Items, Project Installation, Breakdown, Installation, Testing & Commissioning, or Site Inspection.
- System Type: Fire Alarm, Fire Fighting, Fire Extinguishers, FM200 Clean Agent, Emergency Lighting, or All Systems.

STEP 4

Select Customer & Site Premises
Pick the customer company and their specific building/facility site:

- Customer: Select existing customer from list, or click "+ New Customer" to quick-add a new client.
- Site Premises: Select the exact site location. The site address and Civil Defence details are automatically attached.

STEP 5

Enter Financials & Bahrain 10% VAT
Specify the commercial value and tax rate (protected from technician view):

- Amount (Excl. VAT) in BHD: e.g. 250.000 BHD.
- VAT Rate (%): Defaults to standard Bahrain VAT 10%.
- Live Preview: The system automatically computes VAT Amount (25.000 BHD) and Total Incl. VAT (275.000 BHD).
- Quotation Ref #: Enter official quotation tracking number (e.g. QT-2026-088).

STEP 6

Assign Field Personnel (Sales, Supervisor, Tech)
Assign key personnel responsible for the work order:

- Sales Person: Automatically defaults to current user if created by Sales, or selectable by GM/Supervisor.
- Assigned Supervisor: Lead engineer/supervisor overseeing quality and safety.
- Assigned Technician: Certified field specialist dispatched to perform hands-on execution.

STEP 7

Define Schedule, Scope & Submit
Enter Expected Start Date, Expected Completion Date, Work Description, and click "Create Work Order":

- The system instantly generates a formal Job Number (e.g. JOB-2026-008).
- Notifications appear on the Supervisor and Technician mobile dashboards immediately.

4 4. JOB LIFECYCLE: FROM EXECUTION TO COMPLETION

5 5. MOBILE FIELD EXECUTION (TECHNICIAN & SUPERVISOR)

- ' **Site Arrival & Attendance Recording:**
Technician opens the work order on mobile and taps "Record Arrival". System logs exact date and time.
- ' **Digital NFPA Inspection Checklists:**
Each system (Fire Alarm, Pumps, Sprinklers, Extinguishers) has standard items with Pass, Fail, or Needs Attention.
- ' **Defect & Fault Rectification Logging:**
Record components replaced, test smoke cans used, wiring repairs, and pressure gauge recalibrations.
- ' **Photographic Evidence (Before, During, After):**
Direct camera capture or gallery upload. Stored securely with date/time, technician ID, and captions.
- ' **Customer Representative Touchscreen Signature:**
Customer representative signs on the mobile screen. Name, phone, and time are captured for the official PDF report.

6 6. ACCOUNTS FINANCIAL "JOB ON-HOLD" PROTOCOL

FINANCIAL GOVERNANCE: HOW JOB HOLDS PROTECT COMPANY REVENUE

- **PLACING A JOB ON HOLD:** When a client has overdue invoices, Accounts sets job status to "On Hold" with a mandatory reason.
- **FIELD LOCKOUT:** Technicians and supervisors are blocked from continuing work until financial clearance is approved.
- **RELEASE PROTOCOL:** Once payment receipt is recorded and cleared, Accounts or GM clicks "Release Hold" with recorded reason.
- **COMPLETE AUDIT TRAIL:** Every hold and release action is logged with user identity, timestamp, and audit remarks.

7 7. AMC CONTRACT SERVICE SCHEDULING (ACTUAL START MONTH CYCLE)

DYNAMIC AMC 3-MONTH CYCLE RULES (NEVER FIXED JAN-MAR QUARTERS)

- **START MONTH ANCHORING:** Service 1 is anchored to the contract start month (e.g. Aug 15 start = Aug 15 Service 1).
- **3-MONTH CADENCE:** Next service = +3 calendar months (e.g. Aug 15 !' Nov 15 !' Feb 15 !' May 15).
- **ACTUAL COMPLETION CASCADE:** If completed on Aug 20, subsequent visit automatically shifts to Nov 20 (Actual + 3 mos).
- **RESCHEDULE AUDIT:** Rescheduling preserves original scheduled date, logs reason, and records audit trail.
- **DASHBOARD CARDS:** All active contracts display real-time service cycle, next date, days remaining, and OVERDUE alerts.

8 8. EMERGENCY CALL-OUT RAPID RESPONSE MODULE

24/7 RAPID RESPONSE WORKFLOW FOR CRITICAL FIRE DEFECTS

- **LOGGING CALL:** Log caller, site, system failure (pumps, alarms, leaks), priority (Critical, High, Medium, Low).
- **RAPID DISPATCH:** Supervisor immediately assigns certified technician. Live status: Assigned !' En Route !' C
- **ON-SITE RECTIFICATION:** Replace ruptured fittings, clear panel ground faults, re-pressurize sprinkler manifolds.
- **EMERGENCY REPORT (ECR):** Generates formal Civil Defence report with photos, customer signature, and GM sign-off.

9 9. QUICK REFERENCE: USER ROLE PERMISSIONS SUMMARY

User Role	View Jobs	Create Jobs	Prepare Reports	Review / Approve	Manage Finance
General Manager (GM)	All Jobs	Yes	Yes (All)	Final Approval	Full Financials
Projects Manager	All Jobs	Yes	Yes (Projects/Supply)	Review Operational	View Budgets
Engineer	All Jobs	Yes	Yes (Engineering/T&C)	Technical Sign-off	No Financials
Supervisor	All Jobs	Yes	Yes (Work/Inspection)	Review Field Drafts	No Financials
Technician	Assigned Only	No	Yes (Assigned Field)	Submit Draft Only	No Financials
Sales Specialist	My / All	Yes	NO (Read-Only)	No Approval	Quotes / Pricing
Accounts & Finance	All Jobs	No	NO (Read-Only)	No Approval	Invoices & Holds

Note: In accordance with FIREX system updates, all hotline numbers have been removed from normal UI interfaces. Only official reports and company settings maintain formal contact information.
